# WITH GRATITUDE

*A note from the Interim Executive Director, Nicole Anderson*

Boy, what a year 2020 turned out to be! The global pandemic brought unprecedented changes to society as a whole, including the rescue industry. HPA!'s processes for intaking from shelters, providing medical care in our in-house clinic, and finding forever homes for our animals were forced to adapt, and adapt we did!

The most visible change we made was to our dog adoptions. Gone were the days where adopters could visit our facility at their leisure, so we created our Saturday adoption events where dozens of our foster dogs were brought on site for in-person viewing, accommodating families one at a time to ensure everyone's safety. What a smashing success they became!

Growing our foster and volunteer base

during this time enabled us to increase both our lifesaving intake and the amount of medical care provided. Without our dedicated fosters, volunteers, and supporters like you, 2020 would have looked *very* different!

We also want to give special thanks to our incredible COVID grantors: The Meadows Foundation, Leslie L. Alexander Foundation, and the Rachael Ray Save Them All Grants through Best Friends Animal Society, who provided critical funding during this time.

Take a look inside to see what you accomplished in 2020! Thank YOU!

Sincerely,  
Nicole Anderson  
Interim Executive Director

A black and white cat is sitting in a basket, looking directly at the camera. A small kitten is visible in the foreground, partially obscured by the basket's edge. The basket has a plaid pattern.

*HPA!'s mission is to save dogs and cats at risk of euthanasia and find them loving homes, while preventing unwanted animals.*
